Project Overview

[SAS Natura is a marketing project focused on building a strong and competitive cosmetics brand in the natural beauty industry. The project aims to analyze the market, identify target customers, and create a complete digital marketing strategy. It addresses the challenge of standing out in a highly competitive cosmetics market by using data-driven insights, creative content, and paid advertising strategies. The final presentation will include a full marketing plan, competitor analysis, and campaign execution strategy..]

Project Objectives

1. Build a clear brand identity for SAS Natura
2. Analyze the cosmetics market and identify competitors
3. Define and understand the target audience

4. Create a complete digital marketing strategy
5. Develop effective paid advertising campaigns
6. Produce engaging and relevant content strategy

Project Scope

1. Market research and competitor analysis
2. Target audience segmentation
3. Brand positioning and messaging
4. Content creation strategy
5. Paid advertising plan (Meta & Google Ads)
6. Performance measurement and optimization

Final Deliverable: A complete digital marketing strategy including market analysis, content plan, and paid advertising campaign ready for execution.

Project Plan (5 Weeks)

Week 1 — [Research & Analysis]

• Conduct market research • Analyze competitors • Identify target audience

Week 2 — [Brand Strategy]

• Define brand identity • Create positioning statement • Develop messaging strategy

Week 3 — [Content Planning]

• Create content pillars • Plan content calendar • Write sample content

Week 4 — [Advertising Strategy]

• Plan paid campaigns (Meta & Google) • Define budget and targeting • Create ad creatives ideas

Week 5 — [Advertising Strategy]

• Compile full marketing plan • Prepare presentation • Present project professionally
